16. Within thirty (30) days after issuance of this permit and prior to the next pumping of the septic tank, a sample shall be taken from the liquid layer of the septic tank and analyzed for volatile organic compounds by EPA Method 624. A sample shall be taken each time prior to pumping the septic tank. Each sample shall be analyzed by a DEP certified testing lab. The results of all tests shall be submitted to the Board of Health within thirty (30) days after testing. The septic tank shall be tested annually unless otherwise requested by the Board of Health.
21. Gas cylinders shall not be rolled, even for short distances. They shall be moved by a suitable hand truck, in accordance with an OSHA standard that applies.
25. Prior to any new chemical or processes being used, the Board of Health shall be notified.
26. The operation of this facility shall be in compliance with all present and future regulations of E.P.A. and D.E.P. at all times. Nothing in this permit allows or requires non-compliance with all present and future applicable laws or regulations of the Federal or State Governments.
29. All exterior above ground storage tank areas shall have secondary containment, as well as be protected from the elements and have restricted access from the public.
- PETROLEUM PRODUCTS AND ALL HAZARDOUS MATERIALS SHOULD NOT BE STORED ON BARE SOIL.
